MEMORANDUM

TO: Jeffrey C. Parsons, Western Mining Action Project ✓
FROM: Allen C. Sorenson *ACS* ✓
Division of Reclamation, Mining and Safety ✓
RE: Powertech's proposed modification MD-03 to Notice of Intent No. P-2008-043 ✓

Powertech (USA) Inc. has filed modification MD-03 to their Prospecting Notice P-2008-043; MD-03 proposes temporary surface storage followed by underground injection of ground water pumped from a monitoring well for the purpose of aquifer testing. Western Mining Action Project had provided comments on modification MD-02; that modification had proposed a surface infiltration/evaporation pit for management of the pumped water. Modification MD-02 was withdrawn from consideration by Powertech. The Division of Reclamation, Mining and Safety had committed to keeping Western Mining Action Project informed going forward on matters relating to the proposed pump test, and this memo fulfills that commitment. You may view MD-03 online at <http://drmsweblink.state.co.us/search.aspx> by entering P2008043 into the "Permit No" field.

Please let me know if you have any questions regarding this matter and if you want to continue to be informed of developments relating to MD-03.

Sorenson, Allen
