**Re: Permit Conversion**  
**Permit Number: COG-603162 (formerly COG-600988)**

Dear Mr. Blubaugh:

The Division has determined that this operation should be covered under a **General Permit for discharges associated with subterranean dewatering or well development**. Your new permit number will be COG-603000, your new facility number will be COG-603162. All future correspondence should reference your facility number.

Enclosed please find a copy of your certification and permit which was issued under the Colorado Water Quality Control Act. This permit requires that specific actions be performed at designated times. You are legally obligated to comply with all terms and conditions of the permit. It is especially important to note the effective date, which can be found on page one of the Certification. It is illegal to discharge per the conditions of this permit until that date.

Please read the permit and if you have any questions contact this office at (303) 692-3531.

Sincerely,

Loretta Houk
